being ticklish is.

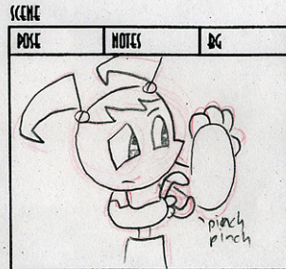

T: Ohhhhh.

T: It's that funny feeling
you get inside when somebody
pinches you. Got!

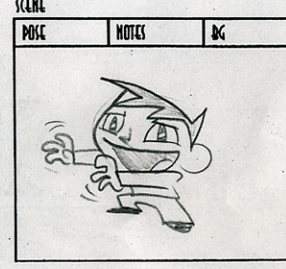

SFX: (metal pinch)

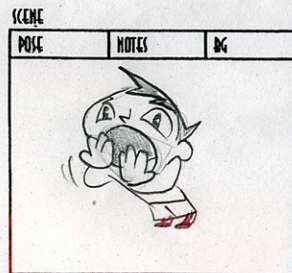

XJ9: Feeling?

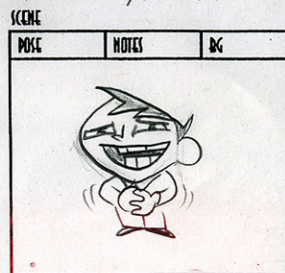

T: UGH!

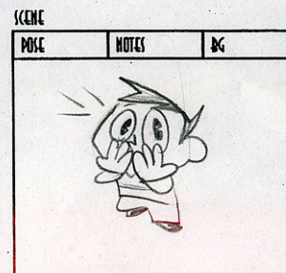

T: Um, it's like the feeling of
taking a bushel of dandelions

XJ9: (COUGH!)

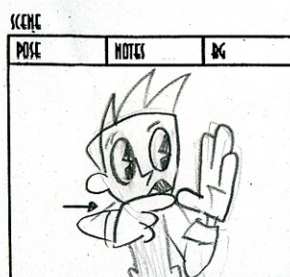

B: Let me try to explain this Tuck!

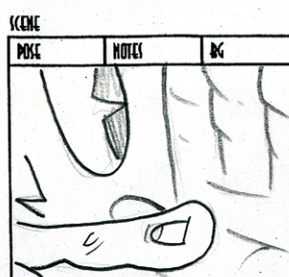

T: What?!

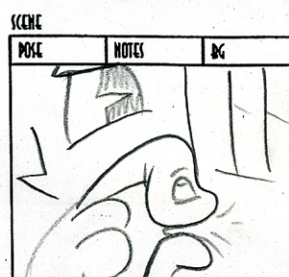

B: You see, we humans have 2 sense of "touch".

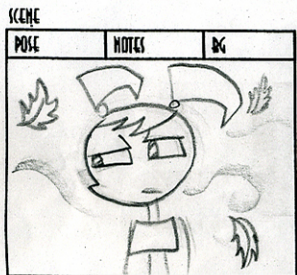

B: This is caused by nerve endings found...

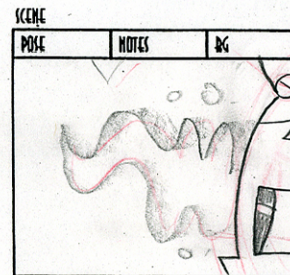

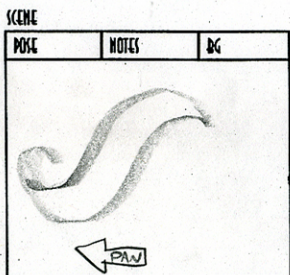

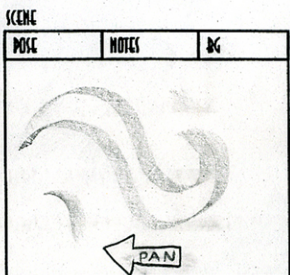

B: Right under the layer of skin.

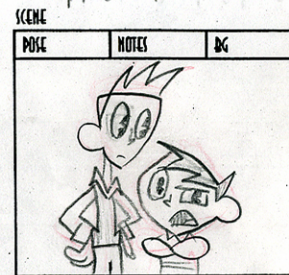

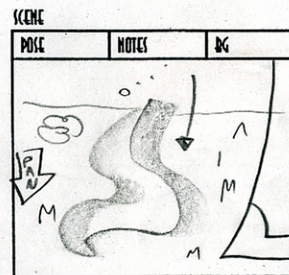

B: And when contact is made a rainbow of feelings are sensed from a pinch...

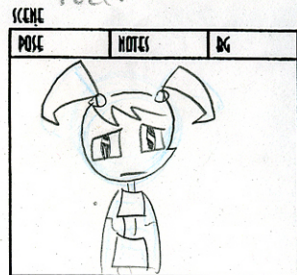

B: To the "feeling" of wind on your face.

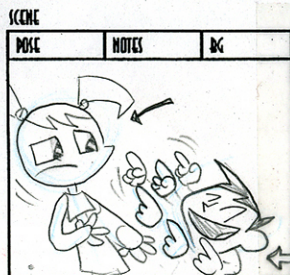

SFX: (Metal tink)

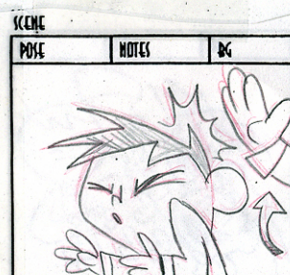

T: Wow. Well I guess it isn't so great being a teenage robot if you can't feel.

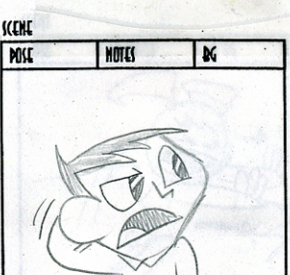

B: Yeah.

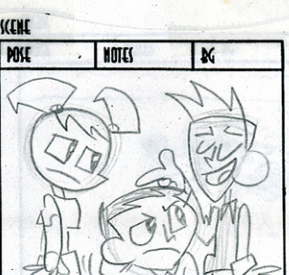

T: YOU'VE GOT NO FEELINGS! YOU'VE GOT NO FEELINGS!

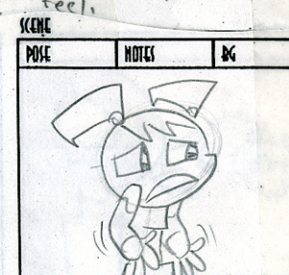

T: Ooh!

T: Hey!

B: See, that's the downside to feeling is pain!

XDG: So, I guess it isn't so great to feel!
